Address:
Erlachgasse 12/14. Vienna-1100. Austria.

Skills

-Angular
- Symfony
-wordPrass
-Bootstrap
- Html5
-Css3
-Scss
-JavaScript
-TypeScript
-Mysql
-Java
-Php
-Programming C
-Git

Career Goals

I am a student of Computer Science at the University of Applied Science Technikum Wien. I am working on free and open-source JavaScript, TypeScript, Java, Php, and Mysql software for building dynamic web applications and passionate to learn new things, grow and adapt in today's fast-evolving technological space.

Academic History

University of Applied Sciences Technikum Wien.
1st semester completed | computer science(Bachelor)

- Programming C, Linked List.
- learned Php concept OOP and mysql Database.
- Basic TCP,UDP,IP LINUX etc.
- A full stack project with raw php and mysql. don't use any framework.

Professional Training Courses

Code Factory wien GmbH.
Bootcamp | Full Stack Web developer.

– around five Frontend real life Project and one of them with *Angular*.
– around four Backend real life Project and one of them with *Symfony.*
– Learn everything I need about Frontend and Backend development .

Online Courses : Udemy,HackerRank and SoloLearn.
Java basic to intermediate | with Certification.

*Link_udemy:https://www.udemy.com/certificate/UC-5facf922-410e-4f1e-9f03-5b2f05e620a4/
*Link_hackerRank:https://www.hackerrank.com/certificates/e4d6fbad9209
*Link_Sololearn:https://www.sololearn.com/Certificate/1068-19011440/jpg/

.

Other Activities

Sports:
 Fitness training, Badminton, Cycling.
Reading:
 Self-development books.

Languages Spoken

European:
German (B2) certified.
Asian:
Bangla,Hindi,Urdu.

My Sample Projects

Travel agency web Application.
Frontend development.

-I had to create a travel agency web application using **Angular**. In this project used **TypeScript**, There are also Travels shopping cart. Customer can purchase their Travelling packages.
-**weblink**:http://alrakib.codefactory.live/angularProj/#/
-**github**:https://github.com/abi30/FE21-CR6-ABDULLA.git

Travelling Blog.
Frontend development.

-A traveling Blog Page to different places, visiting events and eating good food in restaurants. To create a **TypeScript**-based and HTML must be created **dynamically** and without using any Framework.
-**weblink**:https://abi30.github.io/FE21-CR5-ABDULLA/
-**github**:https://github.com/abi30/FE21-CR5-ABDULLA.git

Movie Factory.
Frontend development.

-My job was to create a list of movies for a "Movie factory" website without any framework, had to use only **JavaScript**. Information about the movies should be stored in a JSON file.
-**weblink**:https://abi30.github.io/FE21-CR4-ABDULLA/
-**github**:https://github.com/abi30/FE21-CR4-ABDULLA.git

My Portfolio.
Frontend development.

-Yes, the very website you are currently looking at. It is written in HTML, **SCSS** and **Bootstrap** with a touch of **JavaScript** and jQuery. I intentionally didn't use frontend framework.
-**weblink**:http://alrakib.codefactory.live/
-**github**:https://github.com/abi30/abdulla_portfolio.git

Mybook social network.
Frontend and Backend development (University project).

-It was my first ever big project. It was a web **application**. I developed it in the 2020 winter semester at my University. I played here with raw **PHP**, **MySQL** and without using any Framework.
